DEPARTMENT OF HUMAN SERVICES

Medicaid Division

USVI Provider Enrollment Applications (PEA) October 23, 2025

Attention Providers, Coming Soon

The US Virgin Islands Department of Human Services (USVI DHS) Medicaid Program is pleased to announce that it will be deploying a new solution for its providers on the USVI Medicaid Management Information System (MMIS) Web Portal in early 2026 that will process Medicaid Provider Enrollment Applications in an efficient and automated process in compliance with CMS federal guidelines and local Medicaid policies.

What That Means for USVI Medicaid Providers

This new USVI Medicaid Provider Enrollment Application (PEA) Process will enable provider applicants to enter their enrollment application information into the USVI Medicaid Management Information System (MMIS) Provider Web Portal, and track their application progress, as well as allow Enrolled Medicaid Providers to maintain their data and credentials on an ongoing basis.

Coming Soon! Provider Training Sessions will be scheduled in support of the launch of the USVI Medicaid Provider Enrollment Application (PEA) solution. These sessions will be scheduled in January and February 2026. Providers and their office staff will have the opportunity to join one of the many sessions, either in person or remotely, to learn more.

Participants can choose to attend in person or remotely, making it accessible for everyone to learn about the enhancements and how to navigate the application process effectively.

Stay tuned for more details regarding the training schedule!
